INAUGURAL CEREMONY

««««« BHARAT MOBILITY GLOBAL EXPO 2025 »»»»»

“Driven by the aspirations of the people and energy of the youth, India's automobile sector is witnessing an unprecedented transformation”

Shri Narendra Modi
Hon'ble Prime Minister of India

Hon'ble Prime Minister Shri Narendra Modi inaugurated the Bharat Mobility Global Expo 2025 at Bharat Mandapam, New Delhi.

Shri Jitendra Singh, Union Minister for Micro, Small and Medium Enterprises; Shri H D Kumaraswamy, Union Minister for Heavy Industries and Steel; Shri Nitin Gadkari, Union Minister for Road Transport and Highways; Shri Narendra Modi, Prime Minister of India; Shri Manohar Lal, Union Minister for Housing and Urban Affairs & Power; Shri Piyush Goyal, Union Minister for Commerce and Industry; Shri Hardeep Singh Puri, Union Minister for Petroleum and Natural Gas

Hon'ble Prime Minister in a group photograph with select CEOs from the mobility sector accompanied by Shri H D Kumaraswamy, Union Minister for Heavy Industries and Steel & Shri Piyush Goyal, Union Minister for Commerce and Industry

Hon'ble Prime Minister's visit of the Vehicle Display at Bharat Mobility Global Expo 2025

Hon'ble Prime Minister was received by Mr Shailesh Chandra, President, SIAM for his visit to vehicle display. He was accompanied by Shri H D Kumaraswamy, Union Minister for Heavy Industries and Steel and Shri Piyush Goyal, Union Minister for Commerce and Industry.

Auto Expo – The Motor Show 2025: Showcasing Future Mobility

Auto Expo – The Motor Show 2025 was successfully held under the aegis of Bharat Mobility Global Expo 2025 from 17-22 January 2025, at Bharat Mandapam, New Delhi.

Under the umbrella of Bharat Mobility Global Expo 2025, 34 vehicle manufacturers participated in Auto Expo – The Motor Show 2025, unveiling their latest vehicle models and cutting-edge technologies. The exhibition highlighted various powertrain technologies, including Electric, Hybrid, Ethanol, Flex Fuel, and CNG/LNG, underscoring the industry's commitment to cleaner and sustainable mobility.

◀◀◀◀◀ SIAM INITIATIVE ON LOCALISATION ▶▶▶▶▶

Auto Aatmanirbhar Zone: Showcasing India's Drive Toward Self-Reliance in the Automotive Sector

The Auto Aatmanirbhar Zone highlighted the relentless localization efforts of Indian automobile manufacturers in alignment with the Government of India's Aatmanirbhar Bharat mission. The initiative aimed to establish self-reliance across the entire automotive value chain.

This dedicated zone provided a curated showcase of key components, sub-assemblies, and advanced technologies where significant localization strides have been made. It also featured critical components yet to undergo localization, underscoring the vast potential for domestic manufacturing in vehicle production.

The exhibit served as a strategic platform to encourage Indian component manufacturers to assess the feasibility of producing these parts locally. It also sought to attract investments in emerging automotive technologies that are currently being imported by the industry.

◀◀◀◀◀ SIAM INITIATIVE ON EXPORTS ▶▶▶▶▶

Auto Trade Dialogue

The Society of Indian Automobile Manufacturers (SIAM) organized the 11th Auto Trade Dialogue on the sidelines of Bharat Mobility Global Expo 2025 at Bharat Mandapam, New Delhi. The Theme of the Dialogue was "Changing Paradigm of Global Trade Practices in the Auto Sector".

More than ten countries across the world participated in this dialogue with an objective to strengthen the ties of the global automotive sector. Key Indian industry experts and Government of India officials also marked their presence. The discussions revolved around fostering trade linkages, facilitating investments, importance of localisation policies in fostering innovation as countries are now moving towards cleaner energy solutions, role of FTAs in facilitating easier access partner markets, ensuring availability of raw materials and critical components leading to strengthening of supply chain.

SIAM INITIATIVES ON SUSTAINABLE MOBILITY AND DECARBONISATION

Recycling Zone: Building a Sustainable Automotive Future

The second edition of Circularity Pavilion was a highly engaging and interactive platform at Bharat Mobility Global Expo 2025. The pavilion focused on promoting automotive recycling and circular economy practices, bringing together stakeholders from across the recycling ecosystem, including Registered Vehicle Scrapping Facility (RVSF) operators, technology providers, and recyclers. The pavilion was a hub of activity, encouraging dialogue and engagement around sustainable resource management and vehicle recycling.

The Circularity Pavilion, inaugurated by Shri Nitin Gadkari, Union Minister for Road Transport and Highways, served as a testament to SIAM's ongoing efforts to support India's transition to a more sustainable automotive future by closing the loop on automotive materials and components. Through interactive exhibits and live demonstrations, visitors gained insights into how circularity can transform the automotive industry by reducing waste and maximizing the reuse of materials.

Decarbonisation Pavilion: Driving the Shift to Green Fuels

The Decarbonisation Pavilion at Bharat Mobility Global Expo 2025 continued SIAM's efforts to promote the adoption of alternative fuels that align with India's decarbonisation goals. The pavilion offered a comprehensive look at sustainable fuel technologies such as biofuels, natural gas, and green hydrogen. These efforts are part of SIAM's broader initiatives, including गैस गतिशीलता (Gas-Based Mobility), जैविक पहल (Bio-Initiative), and हरित हाइड्रोजन (Green Hydrogen), which aim to reduce the automotive industry's carbon footprint.

The pavilion, inaugurated by Shri Nitin Gadkari, Union Minister for Road Transport and Highways, featured cutting-edge advancements in alternative fuel technology and brought together key players from the ecosystem to discuss strategies for scaling these solutions. By showcasing innovative technologies and promoting alternate fuel-based technologies of various exhibitors, the Decarbonization Pavilion reinforced India's progress toward a greener, cleaner mobility future.

Electrification Pavilion: Showcasing India's EV Readiness

SIAM has consistently been promoting sustainable mobility and clean energy solutions in the automotive sector. Electric mobility stands at the forefront of India's efforts to reduce emissions and improve urban air quality. With the country aiming for 30% EV sales penetration by 2030, government policies have played a catalytic role in the rapid growth of the electric vehicle industry. This vision has guided SIAM to take multiple steps towards electrification of automobiles in India like launching its initiative विद्युतीकरण (Electrification), organizing multiple EV rallies and creating platforms to showcase the readiness of electric vehicles.

At Bharat Mobility Global Expo 2025, SIAM set up the Electrification Pavilion, inaugurated by Shri H D Kumaraswamy, Union Minister of Heavy Industries and Steel to highlight the evolving ecosystem of India's EV industry. The pavilion brought together key automotive stakeholders, showcasing their capabilities and innovations in EV technology, infrastructure, and manufacturing. By providing a comprehensive view of India's electrification journey, the pavilion reinforced the commitment of the automotive industry to creating a sustainable and low-carbon future.

Surakshit Safar Pavilion: Promoting Safer Roads for All

The third edition of Surakshit Safar Pavilion, inaugurated by Shri Nitin Gadkari, Union Minister for Road Transport and Highways, expanded its scope and scale, offering a grander experience for visitors. In addition to the interactive experiences, the event featured a major initiative by SIAM – a road safety run participated by over 1,100 students. Various road safety competitions were held, aiming to instil road safety good practices in students from a young age.

With a road safety VR zone, driving simulators, quizzes, street plays, and live performances, the pavilion effectively educated and engaged the public, affirming the automobile industry's strong commitment to road safety and responsible mobility nationwide.

SIAM CONFERENCES AT BHARAT MOBILITY GLOBAL EXPO 2025

GEMS: Powering India's EV Leap

The 4th edition of Global Electrification Mobility Summit (GEMS), held under the theme "Powering India's EV Leap: Reaching the Tipping Point," brought together government officials, OEMs, charging infrastructure providers, and ecosystem players at the Bharat Mobility Global Expo 2025. This year's event focused on fostering meaningful dialogue to address critical challenges in the EV landscape while identifying collaborative solutions for accelerating India's transition to electric mobility.

SAFAR: A Roadmap for Safer Mobility

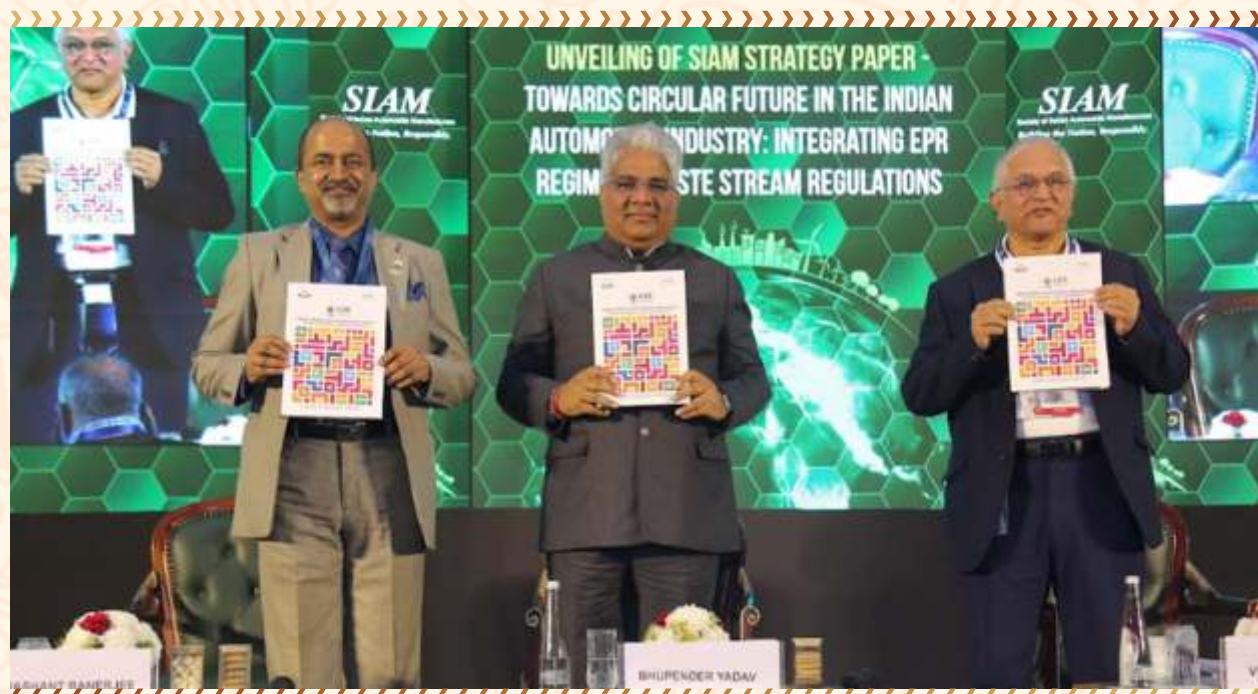

SIAM launched the Summit on Automotive Future Advancements in Road Safety (SAFAR) at the Bharat Mobility Global Expo 2025.

The 1st edition of SAFAR served as a comprehensive platform to promote dialogue and collaboration among policymakers, industry leaders, and safety advocates. The summit's thematic focus was on addressing India's pressing road safety challenges, driving innovative solutions, and amplifying public awareness by bringing together key stakeholders, SAFAR laid the foundation for fostering safer, more inclusive, and sustainable mobility.

ICSC: Driving Circularity in the Automotive Industry

This year's edition of International Conference on Sustainable Circularity (ICSC) focused on critical themes, including Extended Producer Responsibility (EPR), ELV Recycling Compliance, and Regulatory Challenges and Innovations in ELV Ecosystem Management. With insights into cutting-edge technologies and business models, the event underscored the importance of building an ecosystem following the principles of reduce, reuse and recycle through sustainable materials and revolutionizing automotive recycling practices in India.

ISTEM: Building a Low-Carbon Future

The 3rd edition of International Symposium for Thriving Eco-Energy in Mobility (ISTEM), held at the Bharat Mobility Global Expo 2025 under the theme “Decarbonisation Roadmap: Towards a Carbon-Neutral Future,” brought together key stakeholders to address the challenges surrounding biofuels, natural gas, and green hydrogen. The event focused on developing practical solutions and policy frameworks to accelerate the adoption of these fuels, thereby contributing to a sustainable and low-carbon future for India's mobility sector.
